PROFESSIONAL SUMMARY

Delivery Lead / Project Director with 10+ years of experience leading complex digital projects in multi-client agency environments.

I lead end-to-end delivery across web, mobile, e-commerce, custom platforms and AI-enabled projects through the full SDLC, working closely with product, design and engineering teams. I have delivered for clients including Nespresso, Campari and BNP Paribas, while scaling teams, structuring delivery operations and improving planning, reporting and delivery decision-making.

CORE COMPETENCIES

Team Leadership · Multi-Client Delivery · Multi-Project Delivery · Agile Delivery · Cross-Functional Leadership · Client & Stakeholder Management · AI-Enabled Digital Projects · AI & Workflow Automation · Technical Scoping · Delivery Process Structuring · Resource & Production Management

PROFESSIONAL EXPERIENCE

● Delivery Lead & UX Lead

HORREA, LYON, FRANCE | 2022-2025

Led multi-client digital delivery across web, mobile, e-commerce, custom platforms and AI-enabled projects for clients including Campari, BNP Paribas and Nespresso. Coordinated cross-functional teams (2-8 per project) across product, design and engineering. Managed a 12-person delivery team across PM and client service functions, overseeing staffing, planning, forecasting and execution across multiple parallel projects, contributing to scaling the organisation from 6 to 35 employees. Managed delivery priorities and cross-team dependencies across multiple projects. Applied AI workflow automation for task extraction, reporting and profitability tracking.

● Digital Product Consultant (UX/UI & Delivery)

EDG'ART, LYON, FRANCE | 2021-2022

Led UX/UI, functional scoping and delivery for custom web and mobile platforms. Worked closely with developers on WordPress and custom builds, translating client needs into user journeys, prototypes, roadmaps and delivery plans.

● UX/UI Director & Project Director

OUTSOURCIFY, BANGKOK, THAILAND | 2018-2021 (3.5 YEARS)

Built and scaled the agency's creative and delivery capability, recruiting and mentoring an 8-person UX/UI team and supervising 5 project managers (junior to senior) across multiple client accounts. Managed 5-25 concurrent projects depending on scale and phase. Worked with a 25-person engineering team across Symfony, Vue.js and Flutter to deliver custom platforms, mobile apps and e-commerce projects. Strengthened delivery processes, cross-project coordination and quality standards.
